

Successful Participation in the “English in the City” Competition

Great success for our school at the regional “English in the City” competition! Our talented students Anneliese, Hannah, Emilia, and Pavel from year 9 showcased their skills and excelled in challenging tasks, including listening comprehension, reading comprehension, writing, and conversation skills.

Under the guidance of their teacher they demonstrated impressive linguistic abilities and great commitment. We warmly congratulate them on their successful participation and are proud of their achievement!
